	engagement. Also has a partner in Toronto who might be available to supplement or be a leadership team.				
7	Strong in Power Platform and has the broadest technical skills we have seen including Power Apps, Power Automate, Power BI, Dataverse and SharePoint. Is currently contracting full-time with a small regional consulting shop but has formed an LLC to lead projects. Is engaged closely with the community and assisting us in the construction of our Simple{}Collaborations infrastructure.	1) Senior (with Team or IP)	Power Platform	D) Advanced	Colorado
59	Extremely strong "full-stack" Power Platform (Power Apps, Power Automate, Power BI, Dataverse) implementer (over 8 years) with over 20 years of experience and hundreds of Power Apps/Flow in production for clients. Also maintains C#/.NET experience for more complex custom connectors. Able to both develop and manage advanced Power Platform projects. In demand up in Canada now. Started career at Microsoft and maintains close ties there. A long time SharePoint/InfoPath developer who migrated to the Power Platform. Currently available for project work.	1) Senior (with Team or IP)	Power Platform	E) Expert	Ontario
55	A senior resource with CPA and accounting background and extensive data reporting experience. Has worked extensively with Dynamics (and other CRM) packaged products and	2) Senior (Individual)	Dataverse	E) Expert	Indiana

	knows their data structures intimately. Also, well versed in Dataverse and PowerBI as standalone products and is able to design and implement large scale data reporting solutions individually and as part of a team. The Dynamics CRM background provides strong skills in Power Apps Model driven architectures in particular but also skilled in building Canvas style apps to support hybrid data cleansing operations. Looking to downscale from current 50-60 hour work weeks and looking for flexibility in engagements but willing to put in full-time hours as required.				
45	Is more of a senior SQL and data analytics resource focusing on Oracle. Has team leadership experience and looking for part and full time engagements and will broaden his skill set on demand	2) Senior (Individual)	Oracle	E) Expert	Tennessee
44	Is a strong well rounded MS technology administrator and developer both on-premise and cloud. Is also familiar with Azure active directory and MS 365. Built multiple PowerApps/Automate. Also, strong in Google Suite and other non-MS cloud technologies (specifically for the education marketplace). Actively looking for full-time or moonlighting engagements.	2) Senior (Individual)	Power Apps	D) Advanced	Tennessee
43	A senior data analytics executive and currently running a department of a manufacturing firm. Is leading a team of	2) Senior (Individual)	Power Automate	D) Advanced	Michigan

	Has become a Power Automate evangelist and a working knowledge of Power Apps. Currently has an early-stage startup but is looking for part-time and/or moonlighting engagements in the process automation area. Is also working to help grow the Simple{}Collaborations community.				
47	A senior, team and practice lead resource. Currently managing teams of Dynamics CRM and F&O developers. Significant, recent experience building Power Automate flows to manage and synchronize data between disparate systems using Azure Data Factory including domains like automated provisioning of Azure AD from human capital systems like PeopleSoft and daily medical reporting. Some experience in both Power Apps and Power BI. Currently looking moonlighting engagement but would be open to full-time appropriate full-time contracts.	2) Senior (Individual)	Power Automate	E) Expert	Ohio
37	Is very senior and resourced with strong technical and strategy skills, particularly in the healthcare provider space. Can clearly design, develop and deliver complex projects.	2) Senior (Individual)	Power BI	C) Intermediate	Pennsylvania
29	Focused on business intelligence and strong in both Power BI and Tableau. Is looking for full-time engagements, either contract or employee. Tends to be more focused on the processes rather than the specific technical tools.	2) Senior (Individual)	Power BI	C) Intermediate	Oregon

For additional information on any of these resources please contact Mark D. Slosberg, President, Simple{}Collaborations.

24	Is a strong FP&A resource and has experience specifically with Power BI in the Slot Machine Gaming industry. Has done extensive PBI and some Power Apps/Automate projects, specifically executive-facing. Is interested in the opportunity of either a full-time or a part time but would be new to contract work.	2) Senior (Individual)	Power BI	D) Advanced	North Carolina
22	Has a strong data analyst background with extensive PowerBI, PowerQuery, Excel skills along with deep knowledge of Salesforce connector and data sets. Had a strong Excel background before moving into PowerPivot and PowerBI in 2016. Also has lots of early data connectivity experience using Excel including client profiles for a legal practice, logistics, consumer electronics, and medical technology. Has extensive experience in connecting to Salesforce data, using the Salesforce connector, and prototyping using Excel before migrating applications to PowerBI. Also supports the sales team with deeper analytics. Has limited knowledge in PowerApps at this time, just the basics. Currently has multiple contracts, available full-time on April 1. Will have a new PBI certification in a couple of weeks	2) Senior (Individual)	Power BI	D) Advanced	California

For additional information on any of these resources please contact Mark D. Slosberg, President, Simple{}Collaborations.

	PowerQuery. Also has extensive experience with Power Automate Flows connected to Power BI for notifications. Currently fully employed, however, is looking for new challenges. Interested in moonlighting opportunities.				
49	Strong, senior resource experience in manufacturing and engineering. Has worked in the same Swedish engineering firm for 24 years but moved to Power BI 6-7 years ago and has since become the lead data expert in the organization responsible for global reporting for the past 3-4 years. Currently owns analytics, business intelligence and master data for the organization. Due to current "European schedule" from California, has time for moonlight and part-time assignments and might be willing to try a full-time engagement if the right opportunity arose. Is a strong leader and teacher.	2) Senior (Individual)	Power BI	E) Expert	California
51	Senior data resource with extensive Excel background who made transition to Power BI through PowerPivot and PowerQuery approximately 3-4 years ago and is now focusing on data visualization. Has focused on being a deep expert in PowerBI. Is considered a "builder" by peers and management and prefers new "builder" challenges to maintenance and management work. Is comfortable in current job/role but looking for additional part-time work that might lead to challenging full-time assignments.	2) Senior (Individual)	Power BI	E) Expert	Georgia
